Subj: UN-Requested Delay to June 22 on Airshipping APCs

The Attached FAXs from USUN/MSC and JCS/J-4 explain that the UN is unable to receive the U.S.-leased APCs for UNAMIR/Rwanda until June 22, as its representatives are presently engaged in receiving the ten UNOSOM/Somalia APCs. J-4 advises that the unexpected delay has a beneficial aspect, in that it will allow painting of the APCs the distinctive UN white. NSC-Susan Rice has been advised of this delay, and agrees to it.

USUN/MSC also advises:

- that the UN has not yet signed the Letter of Agreement, as it does not expect the delivery of the APCs before June 22
- that USUN/MSC will coordinate a UN request for an airfield operations team for assistance in Uganda during the period the APCs are being unloaded
- that the UN is planning driver and maintenance training using its own resources.
